

# TaskForce

*Task Force* is a highly realistic simulation of modern naval combat. Three of the most critical ocean-going routes — the Mediterranean, the Norwegian, and the Caribbean Seas — are represented on the game map. *Task Force* contains two identical 22" x 34" maps, 440 single and double-sized counters, rules booklet, and various playing aids. The 12 scenarios are presented in four levels of complexity, from introductory to tournament. Additionally, instructions are included to allow players to create new scenarios, using the major fleets of the world and their key ships that are represented in the countermix.
