KEY

PRODUCT TITLE: The name under which the product was carried in the SPI inventory. Some games appear under two or more names. In addition, many individual games were sold both individually and as part of a package (or, even, only as part of a package). The designations "1st", "2nd", etc. indicate editions. The trademark status is indicated (where known) as follows: (R) = Restricted; (TM) = Trademarked; A = Trademark Abandoned; S = Trademark Suspended. Items with no trademark status should be followed by a "TM" whenever used.

PACK = The game's packaging. Where a title was packaged in more than one form, each package-type has been indicated on a separate line. If a title was sold as part of a larger package, its packaging styles listed for it only apply to the title as it appeared individually (not as part of another package). The numbers and letters in this column are defined below:

C = Capsule Package...title was sold in plastic envelope.
 F = Folio Package...title was sold in s-wrapped paper folder.
 H = Hard Map...title was sold in 2" box and had a hard map.
 M = Magazine...title was sold with issue in which it appeared.
 S = Self Cover...title is book(let), often shrink-wrapped.
 T = Tray...title was sold in plastic tray with cover sheet.
 Z = Z-Pack...title was sold in zip-lock bag...no frills.
 = Box 1...title was sold in standard 1" thick box...no tray.

2 = Box 2...title was sold in standard 2" thick box...some trays.
4 = Box 4...title was sold in standard 4" thick box...2 trays.
- = No Package...title was never sold separately.
B = Box...item comes in plastic box.

RTAIL: The retail price at which the title is currently sold by TSR or (if not in inventory) at which the title was last sold by SPI.

STOCK: The number of units of the game in inventory.

CODE: The inventory code used by SPI to track the product. This code may be preceded by "0" when used by TSR.

STATUS: The current status of the title. The status codes are:
A = Reprint or revise ASAP. B = Hold game and/or mark for future use. C = Sell game and/or mark if possible. Drop from line.

UNITS: The average number of units sold per month during the last 12 months. A "----" indicates that the title is not currently sold except via DUNGEON HOBBY SHOP.
